SUMMARY

I'm a passionate Full Stack Developer who loves building websites that are both functional and easy to use. I have a solid foundation in ASP.NET Core MVC, HTML, CSS, and JavaScript, and I enjoy working with frameworks like Bootstrap and Angular to bring ideas to life. In the back-end, I am comfortable with SQL Server and MySQL, crafting solutions that grow with the needs of the project. I am currently in my final year of Software Engineering (with a 3.15 CGPA) and have been sharpening my skills as a Front-end Developer at Xera Marketing. I thrive on learning new things quickly, solving problems and teaming up with others to create something awesome. I am excited to bring my energy and skills to a team that is all about innovation!

EXPERIENCE

• Codoyens – Karachi, Pakistan

Angular and .NET Developer | July 2025 – Present

- Joined Codoyens as a Full Stack Developer with a focus on Angular for front-end and .NET for backend development.
- Working under the “Codoyens” team to deliver scalable and efficient web applications.
- Engaged in cross-functional collaboration and contributing to both client and internal projects.

• Xera Marketing – Karachi, Pakistan

Front-end Web Developer | January 2024 – October 2024

- Promoted from Intern to Front-end Developer after demonstrating strong technical skills and commitment.
- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, and modern frameworks.
- Collaborated with design and backend teams to improve UI/UX and meet project deadlines effectively.
- Contributed to multiple client projects, delivering high-quality and optimized front-end code.

PROJECTS

• Event Management System | *AngularJS, ASP.NET Core MVC, ASP.NET Core Web API*

2024 | 

- Built a dynamic event management system with AngularJS for the front-end and ASP.NET Core for the back-end, utilizing a Code-First API approach.
- CRUD operations, event search, filtering, and pagination have been implemented for efficient data handling.
- Integrated Swagger UI for streamlined API documentation and improved developer collaboration.

• Online Bus Reservation System | *HTML, CSS, JavaScript, SQL Server, ASP.NET Core MVC*

2024 | 

- Developed a robust reservation system with user authentication, real-time ticket booking, and cancellation features.
- Optimized database management for routes, buses, and employee records, ensuring seamless performance and usability.

• Online Courses Website | *HTML, CSS, JavaScript, SQL Server, ASP.NET Core MVC*

2024 | 

- Created an ASP.NET Core MVC application with an admin panel to manage courses, instructors, and embedded YouTube lectures.
- Designed a responsive, intuitive front-end interface to enhance user engagement and navigation.

• Hotel Bright | *HTML, CSS, JavaScript, Bootstrap, jQuery*

2024 | 

- Engineered a static hotel management website with responsive layouts and interactive features using Bootstrap and jQuery.
- Improved cross-device compatibility and user experience through dynamic design elements.

EDUCATION

• University of Karachi

Bachelor of Science in Software Engineering, CGPA: 3.15 / 4.00

Karachi, Sindh

February 2022 - Present

• Aptech Learning North Nazimabad

Advanced Diploma in Software Engineering

Karachi, Sindh

February 2023 - Present
